DISSOLUTION OF NEW HAVEN STRIKES SNAG

Difference on Boston and Maine Trustees May Further Delay Nominations.

Negotiations for separating the New Haven and the Boston and Maine railroads struck a snag here today that may further delay an agreement between the corporation and the Government. Governor Walsh of Massachusetts, who has attended the conferences in the last three days, left for Boston early this afternoon without having seen Attorney General McReynolds.

The most serious difference occurred between the personnel of a board of five trustees to take over the Boston and Maine stock, which the New Haven controls through the Boston Holding

Company. The Government made one concession on this point, conceding a board of five, instead of three, as it had asked.

Governor Walsh departs on the heels of his statement that he expected to remain in Washington until the main points of the agreement were settled. He indicated before leaving, however, that he had made certain the optional interest held by the State of Massachusetts in the matter will not be affected by any agreement reached later by the Government and the New Haven.

Howard Elliott, chairman of the New Haven, who left last night to confer with other officials of the road in New York today, is expected to return next week.

There are important questions of law and finance involved in this case, besides many matters concerned with the actual operation of the road," said one of the New Haven attorneys today.

To draw up an agreement that will dovetail all these matters is a huge task. Much of the difficulty is due to the fact that the Boston and Maine is in poor condition financially, and may not be able to stand on its own feet without assistance.

This makes more and better cough syrup than you could buy ready made for \$2.50. It keeps perfectly and tastes pleasant.

Making cough syrup with Pine and sugar syrup (or strained honey) has proven so popular throughout the United States and Canada that it is often imitated. But the old, successful mixture has never been equalled.
